M-59 Hall Road Reconstruction Project

Cities of Sterling Heights
and Utica, and Shelby, Macomb,
and Clinton townships

Construction and Motorist
Information

March 2017 - October 2018

What is Being Done?

The Michigan Department of Transportation (MDOT) will be reconstructing 3.7 miles of M-59 in the cities of Sterling Heights and Utica, and Shelby, Macomb, and Clinton townships. The project will be completed in two phases:

Phase 1

- Concrete roadway will be replaced by asphalt
- Install new modern signals
- Improve drainage
- Improve ramps and sidewalks to be compliant with the Americans with Disabilities Act (ADA)
- Replace signs
- Fill sidewalk gaps
- Add plants, trees and shrubs

Phase 2

- Add a fourth lane on both sides of M-59 between Garfield and Romeo Plank roads
- Same improvements as Phase 1

When Will This Be Done?

Phase 1 is scheduled for March - October 2017.

Phase 2 is scheduled for March - September 2018.

How Will Traffic Be Affected?

Three lanes will be open in each direction through the reconstruction area 6 a.m. - 9 p.m. daily. Only two lanes will be open in each direction on M-59 over M-53 through mid-summer 2017.

Work will occur day and night. Business and pedestrian access will be maintained throughout the project.

Long-term Benefits

This project will extend the life of the roadway and allow for better traffic flow along Macomb County's Golden Corridor.
